

## ***Word Wheel 3A: the totally empty letters G, H, and GH***

*The Verb Company*  
*November 11, 2015*

- Word Wheel 3A contains all common monosyllabic words that contain the empty letters G, H, or GH; the words are otherwise regular, and the empty letters have no effect on the rest of the word
- G and GH on the right, H on the left (you can find the other empty letters in Word Wheel 3B)
- Note that in some dialects of American English, the WH at the beginning of the word is pronounced HW (rather than W)
